Free GCP cost optimization assessment

The way people work has changed. Identifying optimization opportunities in your infrastructure to align cloud spend can help you get to your business goals.

Our cloud experts give you a better understanding and analysis of your cloud spend with a free assessment around utilization and cost.

Assessments include:

Discovery
We’ll get to know your business objectives and goals, and share in-depth use cases to identify relevant examples.

Review
We’ll help you better understand your resource usage and utilization, and generate cost optimization opportunities.

Education
We’ll educate you on general tips & tricks across several GCP products and services, along with a detailed review of Compute Engine, Cloud Storage, and BigQuery.

Recommendations
Based on your current state, we’ll share recommendations for tools, resources, budgets and more. We’ll also offer cost optimization strategies that can help you better use what you have.

Deliverables

Cost optimization executive summary
This presentation will contain an executive summary of cost optimization recommendations and best practices across multiple GCP services. It is intended for technical leaders accountable for cost and budget decisions on Google Cloud.

Cost optimization report
This detailed report will contain a breakdown of cost optimization recommendations based on resource utilization and usage across Compute Engine, Cloud Storage, BigQuery, and other GCP services based on use cases discussed. It is intended for Cloud COE, business and technical teams responsible for implementing cost optimization actions.

Cost management dashboard
A live dashboard that will report on the costs consumed across GCP as broken down per business requirements. This could be based on functional business units, infrastructure tags, projects, regions, etc. The live nature of this allows stakeholders to regularly monitor spend across the organization and act on trends as opposed to reacting at the end of the month.
About SADA

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It’s not enough to migrate to the cloud, it’s about what you do once you’re there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we’re not an add-on, we’re a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It’s the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, financial services, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

“SADA used their technical expertise, guidance, and years of experience working with companies in related spaces to make our migration from AWS smooth, and they continue to help us make the most out of GCP and minimize our costs. I have a call with our TAM manager every two weeks to make sure we’re always on top of things.”
