

SADA'S LANDING ZONE PACKAGE

Engage with **SADA's Cloud Engineering (CE) team** to get set up with your initial, complimentary Google Cloud Platform (GCP) Landing Zone (valued at \$20,000) to reduce the friction of getting started with GCP. During the engagement, our team will work with you to stand up an environment to meet your business and technical needs. This is accomplished by configuring:

- Cloud Identity / Workspace for access and authentication
- Resource Hierarchy for an organization of folders and projects
- Identity & Access Management (IAM) for authorization
- Networking for pilot workload
- Logging & Monitoring for Operations

All adhering to best practices we have learned from implementing initial GCP setup for hundreds of customers. New SADA customers are provided with a named complimentary Customer Success Manager (CSM) that will track progress and health of the project, and ensure your business objectives are met.

What to expect

Our Landing Zone offering features 5 milestones with a mix of enablement sessions and working sessions:

Milestone 1: Kickoff – Project overview & review of plan

Milestone 2: Admin & Billing – Creating administrative rights and billing access

Milestone 3: Authorization & Organization – Identity management and resource hierarchy

Milestone 4: Operations & Oversight – Logging, monitoring and security

Milestone 5: Handoff – Workload identification and next steps

What's provided

SADA will provide a Terraform template for automatic creation of the base Landing Zone. This provides you with a fully functional, programmatic environment to deploy your first pilot workload on Google Cloud!

It doesn't end there!

Our Cloud Engineering and Solutions Architecture (SA) teams are here for SADA customers beyond the Landing Zone creation. Think of us as an extension of your team to facilitate the next steps: be it pilot deployments, architecture reviews, migration plans, optimizations, and more.

About SADA

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's about what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, financial services, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

Your challenges are ours. We're ready. Let's go.

Put our expertise to work

As an award-winning Google Cloud Partner with Specializations, SADA brings deep industry expertise to amplify your journey to the cloud and beyond, allowing you to innovate and thrive.

With you from the start

We get to know your business, and make your success ours. We evaluate your processes, dig into your unique challenges, and find the best way forward.

Consult

Let's turn your challenges into opportunities and boost collaboration, accelerate innovation, increase agility, build cloud-native applications, better protect your business, or make the most of your data.

Migrate and modernize

We'll pave a clear, fast and seamless path to Google Cloud deployment by modernizing your existing applications and migrating your VMs and data.

Manage change

There's infrastructure change and then there's ensuring your people are in the driver's seat. Our change management services will ensure you're able to reinvent the way you do business.

Project management

Ramp faster, develop smarter, migrate more efficiently, and see better results with an experienced partner on your side.

24/7 technical support

We've got you covered. Our experts are always a phone call away.

“Google should be applauded not only for their platform and tools, but also for their partner ecosystem. They did the right thing when they enabled experienced partners, like SADA, to help implement and optimize their technology.”

Jim Hefner
