POWER ON

POWERON Production Machine Learning

Deploy your ML solution into production to serve model predictions, evolve models, and achieve confidence in performance

You've developed your ML model and now are ready to take it into production. **POWERON Production Machine Learning** builds and deploys a robust ML stack ready for automated application integration to efficiently solve your business problems.

ML insights in just 3 weeks

POWERON Production Machine Learning consists of four milestones:

Milestone 1: Requirements review
Identify functional requirements with data sources and infrastructure needs and review customer business workflows

Milestone 2: Design and implement
Designing the production scale pipeline with training schedule and infrastructure deployment

Milestone 3: Operationalize pipeline
Add CI/CD, monitoring and alerting; align with SLAs

Milestone 3: UAT and documentation
Perform user testing with typical end users and full documentation handoff

SADA

Partner with the best

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

"I can count on one hand how many times I've completed an engagement where I felt like going out of my way to work with a vendor. SADA has been added to my list of those vendors. The team–from sales to engineering, through advisory, and project management– were honest, managed my expectations very well, lived up to their commitments, and delivered a solution that represents the next generation of our platform."
