

## POWERSTART Hadoop Migration Assessment

Manage the stages and complexity of Hadoop workload migration to Google Cloud

Migrating your on-premises Hadoop system to Google Cloud can reduce operational complexity and unlock additional analytics and AI opportunities. However, doing it alone without a step by step plan creates stress for your IT team. SADA's **POWERSTART Hadoop Migration Assessment** establishes a clear path to migrate your specific workloads to Google Cloud, all customized to your unique technical requirements.

### Migration visibility in just 3 weeks

#### POWERSTART Hadoop Migration Assessment

consists of three milestones over a 3-week engagement:

##### Milestone 1: Discover on-premises state

A detailed discovery of your current Hadoop cluster topology, workloads, and utilization.

##### Milestone 2: Analyze migration efforts

An evaluation of migration efforts based on your current state conducted with both automated tooling and human analysis.

##### Milestone 3: Build final report

An executive report with recommendations and detailed next steps for migration.

### Key deliverables

Your customized executive final report will include everything you need to begin Hadoop migration with confidence. It will include:

- / Analysis of a current **Hadoop clusters**
- / Recommended next steps, with **cost estimates**
- / **Architecture diagrams** of migration solution

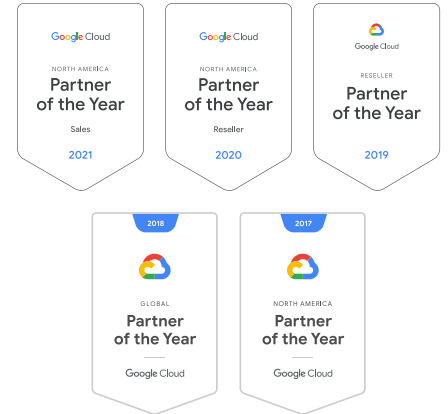

## Partner with the best

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

“Hadoop is still the elephant in the room when dealing with large scale data processing, and migrating these workloads to the cloud can deliver significant benefits to a wide variety of businesses. These migrations, while they can deliver lots of value, can also be complex. The [SADA POWER](#) assessment products are designed to reduce risk in these engagements, and the [POWERSTART Hadoop Migration Assessment](#) is no exception. Starting your cloud journey with the right assessment is key to maximizing your success”
