Chart your path to operating model maturity and accelerate your journey with SADA as your guide. Flex Services acts as your cloud adoption sherpa, leading you through the long-haul transformation of your applications, infrastructure, and internal processes while managing and supporting your GCP environment. We empower you to continually challenge the status quo and drive innovation with experimentation. Achieving DevOps maturity requires a commitment to iterative improvement. We’ll get you there faster so you can profit from the benefits of the cloud sooner.

**Key features**

- 24x7 access to a team of GCP experts
- Proactive response and remediation
- Simplify management and capture GCP’s full benefits
- Faster implementation and innovation
- Track progress towards industry-standard OKRs
- Transition ownership of your mature operation to your own team seamlessly

**Flex Services journey**

Your needs are dynamic and change over time, which is why Flex Services is highly adaptable to any business and technological solution. We chart the course and help you get there in three stages of transformation:

**Operational foundations**

Establish the most essential practices, blueprints, and tooling as scaffolding from which to build and grow.

**Operational maturity**

Build a DevOps platform, refactor your applications to unlock the power of cloud technologies, and automate security.

**Operational innovation**

Connect business outcomes to IT operations by using systems telemetry to measure business performance.

“It’s important to find partners that can support Quantum Metric’s accelerated growth, given the increasing importance of delivering digital products with greater impact, speed, and confidence. As such, we’ve made a five-year commitment to Google Cloud through SADA, given their technical expertise and the strong relationship SADA has established with the Google Cloud team.”

Mario Ciabarra
CEO and Founder | Quantum Metric

**Partner with the best**

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It’s not enough to migrate to the cloud, it’s what you do once you’re there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we’re not an add-on, we’re a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It’s the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

---

**Flex Services advantage**

- **Full-stack support**
  Investigate and identify performance issues all the way down to individual lines of code

- **Business adaptability**
  Continue using your existing tooling, processes, and providers

- **Customer affinity**
  Your Flex Services team is assigned to work with you throughout the life of our partnership

- **Engineering flexibility**
  Use engineering time for any task, transformation, or operation

- **Engineering efficiency**
  Second-by-second tracking of engineering time

- **Engineering elasticity**
  Scale hourly commitments up or down monthly
