

POWERPLAN

POWERPLAN GCP Cloud Security Assessment

Safeguard the cloud with GCP and SADA

Review and improve the security posture of your Google Cloud environment with SADA to support future growth, maintain operational excellence, and ensure your future success. With **POWERPLAN** Cloud Security Assessment, a dedicated SADA team, including a Senior Cloud Security Engineer and a Project Manager, will evaluate your current configurations and platform controls, provide detailed recommendations, and present best practices to reduce risk and confront common threats. With SADA, you'll get the most out of GCP's robust security features.

What to expect

POWERPLAN Cloud Security Assessment consists of four milestones over a 5-week engagement:

Milestone 1: Kickoff

You'll be introduced to the team, and we'll identify project scope and resource requirements.

Milestone 2: 10-point review

A 10-point assessment of your current security strategy will be performed.

Milestone 3: Activity logs threat hunting

Your audit logs will be reviewed to identify threats and risks.

Milestone 4: Assessment overview and report delivery

You'll receive final readout of the deliverable report.

10-point review

We assess your security strategy in the following domains:

- 01 / Identity and access management
- 02 / Secrets management and data security
- 03 / Organization policy strategy
- 04 / DevSecOps pipeline
- 05 / VPC service controls and private Google access with DNS for isolations
- 06 / Logging and monitoring strategy (SIEM for SOC, CSCC integration)
- 07 / Asset threat management
- 08 / GCE and VM security
- 09 / GKE and container security
- 10 / Incident response

Key deliverables

/ Recommendations report

Detailed list of findings and recommendations to implement for improvement

/ Threat hunting review

Activity logs analysis to identify threats and security risks

/ Executive summary

Top priority findings and key areas for improvement with an overall capabilities scoring

“SADA’s ability to go from zero to 60 in terms of understanding the problem we were trying to solve, to look at the architecture we were going from, and to propose an architecture that we should go to, were the main reasons why we chose to work with SADA.”

Bill Hippenmeyer

Chief Operating Officer | Gloop

Partner with the best

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It’s not enough to migrate to the cloud, it’s what you do once you’re there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we’re not an add-on, we’re a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It’s the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.
