POWERON Google Cloud Native Access Control

Protect your work-from-anywhere configuration with zero trust endpoint security

Securing your apps and data with built-in threat and data protection is more important than ever as more workforces are distributed remotely across the globe. With SADA's **POWER**ON **Cloud Native Access Control,** you can rest assured that your security posture is aligned to the zero trust solution that's right for your business.

With expert implementation by a dedicated team from SADA, **POWER**ON **Cloud Native Access Control:**

- Gives your teams secure access to critical apps and services
- Simplifies the experience for admins and users
- Modernizes and improves your security posture

Timeline

POWERON **Cloud Native Access Control** consists of 3 milestones over a multi-week engagement, depending on the size of your environment.

Milestone 1: Discover and plan
Review of your current environment and systems with project kickoff

Milestone 2: Implement and test
Deployment of BeyondCorp Enterprise with user acceptance testing

Milestone 3: Handoff
Delivery of all materials, documentation, and code created throughout the engagement

Key deliverables

/ **Virtual private cloud (VPC) policy**
Establish trust boundaries with access levels for organization, folder, or project

/ **Access level creation**
Protect your HTTPS endpoints with more options

/ **Secure Chrome profiles**
Configured and applied user and browser settings in Workspace Admin console

/ **Infrastructure as code**
Terraform templates for access levels under version control to predictably create and improve zero trust policy management

/ **Technical design document and architecture diagram**
Inventory of configuration options, decisions, and recommendations for deployment

SADA

Partner with the best

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.
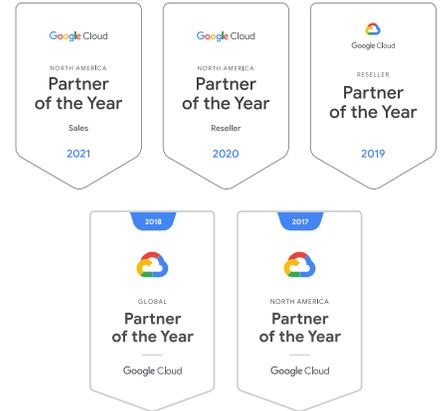

"We are growing super fast. We needed a partner that was on the cutting edge of technology. Even though we're cloud forward, we can't be behind in thinking about privacy, security, or hacks."

Chris Voigt
