

ENTERPRISE DATA CENTER MODERNIZATION (DCM)– FASTER, SMARTER, AND VALUE-DRIVEN

When modernizing your mission-critical systems, it's vital to orchestrate security, budget, and operational requirements in conjunction with your workload. With the right support and strategy, you can not only modernize your systems, but move your entire organization to a new mindset. SADA is here to help you succeed in that undertaking.

With SADA informing your DCM strategy, you will:

- / Assure your customers that their **data is always safe**
- / Execute your daily operational tasks while meeting your **milestones to modernization**
- / Empower your team with the skills to **adapt and innovate** in your new environment
- / Get the most value from your cloud spend with smart **FinOps solutions**

It's simple—a DCM strategy built on **best practices** means lower risk and **faster modernization**. And accelerated time to value saves you money, putting your business in the best possible position to scale, transform, and deliver for your customers.

Introducing your dedicated DCM team

As one of a handful of global **Google Cloud Partners** to be named a delivery partner of the **DCM specialization**, SADA comes with a track record of **accelerating time to value** through digital transformation in every industry. SADA's DCM experts stand ready to help you strategize, execute, and maintain your comprehensive plan.

DCM is a major undertaking that asks a lot from your teams. SADA serves your teams through the expertise of a variety of specialists, including::

- / **Change Management** experts who start with a deep dive into your company's culture, current Google Cloud skills, and existing best practices, then develop **custom training programs, resources, and communications** to get your teams and stakeholders up to speed and totally on board.
- / **Project Managers** who bring tens of thousands of hours of successful modernization initiatives to bear on your organization's unique needs. Your dedicated PMs help turn your specific **business objectives** into an **actionable plan**, and organize the **technical resources** necessary to make it all succeed.
- / **Engineers** and experts focused on specific practice areas, including **Application Modernization, Infrastructure Modernization, Security,** and more.

Getting the most DCM value

Maximum speed = maximum savings

When you execute an efficient DCM strategy, you not only reduce friction within your organization, you optimize costs along the way. Your dedicated SADA team is laser focused on helping you manage your cloud spend with FinOps best practices every step of the way. True modernization means realizing savings with future operations, not just during your initial deployment.

Solutions for any cloud configuration

Your business is unique, and you have non-negotiable requirements for your data. Whether you're moving to Google Cloud, a hybrid cloud environment, or multicloud, your dedicated SADA team will help you design and execute the plan that suits you best. And with more Anthos fellows than any other organization, multicloud modernizations are in SADA's wheelhouse.

Cloud confidence

Security is never an afterthought. Leaders in industries with stringent compliance and data safety requirements, including healthcare, government, and finance, rely on SADA's security expertise to ensure that their systems are fortified against any future threat. You can rest assured that your dedicated SADA team will bring the same vigilance and diligence to your business, as well.

Start your DCM journey with confidence

“With help from SADA, my team is enabled to spend up to 30% less time on data wrangling and more time providing business intelligence and insights than before. This is what moves the needle and takes our business forward. They also helped us be smarter about how we will go about doing things in the future.”

Asif Rahman

Vice President of Digital Analytics and Audience | AccuWeather

Partner with the best

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.
